Attempt : 1

Total Mark : 10

Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Sesha is developing a weather monitoring system for a region with multiple weather stations. Each weather station collects temperature data hourly and stores it in a 2D array.

Write a program that can add the temperature data from two different weather stations to create a combined temperature record for the region.

Input Format

The first line of input consists of two space-separated integers N and M, representing the number of rows and columns of the matrices, respectively.

The next N lines consist of M space-separated integers, representing the values of the first matrix.

The following N lines consist of M space-separated integers, representing the values of the second matrix.

Output Format

The output prints the addition of the two matrices in N rows and M columns, representing the combined temperature record.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3 3

1 2 3

4 5 6

7 8 9

1 1 1

2 2 2

3 3 3

Output: 2 3 4

6 7 8

10 11 12

Answer

```
// You are using Java
import java.util.Scanner;
public class Main {
    public static void main(String[] args) {
        Scanner sc = new Scanner(System.in);
        int N = sc.nextInt();
        int M = sc.nextInt();
        int[][] first = new int[N][M];
        int[][] second = new int[N][M];
        int[][] sum = new int[N][M];
        for (int i = 0; i < N; i++) {
            for (int j = 0; j < M; j++)
                first[i][j] = sc.nextInt();
            for (int i = 0; i < N; i++)
                for (int j = 0; j < M; j++)
                    second[i][j] = sc.nextInt();
        for (int i = 0; i < N; i++) {
```

```
        for (int j = 0; j < M; j++) {  
            sum[i][j] = first[i][j] + second[i][j];  
        }  
        for (int i = 0; i < N; i++) {  
            for (int j = 0; j < M; j++) {  
                System.out.print(sum[i][j] + " ");  
            }  
            System.out.println();  
        }  
    }  
}
```

Status : Correct

Marks : 10/10
